			Issue: 2 incidents of concern-Boys treatment of girls on campus. Didn't want to report for fear of retaliation.	This has to change and it's all of our charge to find solutions. No one should be made to feel afraid this way. Does this need to involve students? Is this a public awareness piece? Parents want to help be part of the solution. Administrative discussion to come. Another parent has a similar story. Is this something that's appropriate to use safe 2 tell for? CSU title 9 group? They receive the complaints (student services). Is there a parallel of this issue with "Screenagers"?
