

# Agenda SAC

---

Facilitator: **Dr. Chaplain**

Estimated Time	Topic	Lead Person	Method	Notes
5 minutes	Welcome	Dr. Chaplain	Discussion	Introduction of Kelly McPhee and Kim Gardner.
10 minutes	DAB Update	Ms. Williams	Information Sharing	Social Emotional Learning-surveys to Principals showed a theme of necessity. Parents, staff, Principals want it. Looking at “standard level of care” and what does that look like? Futures Lab is coming along. The upcoming high school committee is seeking feedback on what the community wants. School Board picked 2 replacements for the members who took other positions.
20 minutes	FRHS response to district input (Initial conversation)	Dr. Chaplain	Information Sharing & Discussion	Feedback due by April 1st – Dr. Chaplain sent survey to staff and will share a summary of the response: Smaller class sizes Less admin and more teachers Less classified staff and less counselors More money for PD New teacher chairs Sound system for the Gym We did get mill levy override money and will apply some of this for the 185 chair replacements Looking at a lighter version of the wrestling mats which need to be replaced.

30 minutes	UIP Progress Update	Dr. Chaplain Kelli McPhee Kim Gardner	Information Sharing & Discussion	<p>Dr. Chaplain sent UIP via email and will discuss progress on each strategy</p> <p>Math, Language Arts, Graduation Rate.</p> <p>Math:</p> <p>Put Geometry in Construction in the course catalog this year.</p> <p>Waiting on numbers of student requests.</p> <p>Math sequencing continues to develop.</p> <p>We can now give math credits for Accounting.</p> <p>Still refining math placements, this year went pretty well.</p> <p>Language Arts:</p> <p>Continuing to align and articulate the curriculum within FRHS.</p> <p>Developing a process for placement (FR). 2 teachers working specifically with students who need extra support.</p> <p>Next year we will have students coming who have “READ” plans.</p> <p>District has asked us to use building funds to support this.</p> <p>FRHS is thinking about how to build capacity in staff rather than just hiring one person to take this work and pull students out of their classes.</p> <p>Suggestion: get feedback from students who have the plans and find out how they feel about a “special teacher” following the around.</p> <p>District is doing an RFP for programs at the high school level like the AIMS web that is used at middle school.</p> <p>Language Arts is discussing a writing lab implementation during ELO next year.</p> <p>Intervention team identified their best hopes and presented to the Admin team. Teachers who teach</p>
------------	---------------------	---	----------------------------------	--

				<p>the intervention classes are drained. A lot of their planning time is used up, so they requested an extra planning period next year. Math would rather have a classified general education paraprofessional. All of these things have a price tag. We are also trying to think outside the box, for example Ridge Wrx.</p> <p>Kelly and Kim explain the intervention referral system. More teachers have referred this year than any previous year. To be in Mind Center and Discovery they need the referral. MTSS philosophically is all students. Students this year can self-refer. We have just started some parent referrals and are trying to refine this part of the process. The hope is to be more collaborative to identify student needs.</p> <p>On time graduation rate: Wellness center- this is a staffing issue. One of our Deans is working on a grant that other schools share for mental health support person. Discovery curriculum. We separated our online and Mind Center environments. Continue to monitor on-track and off-track students, we have letters that go home, calls, then team meetings. Ideally we would use our 3-tier system with all grades, but we currently use it with 11<sup>th</sup> and 12<sup>th</sup>. We have added Hi-set this year, which provides test prep for GED.</p>
25 minutes	Culture & Climate Survey	Dr. Chaplain	Summary of themes presented & Discussion	PowerPoint Presentation sent to SAC prior to meeting
